## The MiniMed™ 670G system

The world's first self-adjusting  
insulin pump system<sup>1,2,3</sup>

Some user interaction required.

**Medtronic**

# MINIMED™ 670G SYSTEM AUTOMATICALLY ADJUSTS TO YOUR LIFE.<sup>2,3</sup>

There is no 'typical day' when it comes to managing your diabetes. That's why the MiniMed™ 670G System with SmartGuard™ technology automatically adapts to your unique insulin needs to help stabilise your glucose. Personalised to your diabetes, it focuses on you so you can focus on whatever your day and night brings.

Some user interaction required. Individual results may vary.

## Carling

"My HbA1c dropped from 7.6% to 6.9% in less than three months."

## THE MINIMED™ 670G SYSTEM KEEPS UP WITH MY BUSY LIFESTYLE.

### GETTING MY CHILD TO SCHOOL ON TIME...

As I sleep, SmartGuard™ technology helps keep my glucose in a healthy range, so I can wake up energised to face a busy morning.

### TRYING NEW MEALS...

The MiniMed™ 670G system helps stabilise my after-meal glucose levels, even if my carbohydrate count is slightly off.

### ...AND TACKLING MY DAY WITH CONFIDENCE

Whether or not my day goes as planned, SmartGuard™ technology adapts to my real-time needs so I can focus on whatever the day brings.

MiniMed™ 670G system users report that it met or exceeded expectations for spending **LESS TIME THINKING ABOUT THEIR DIABETES**<sup>4</sup>

of people using the MiniMed 670G system **REDUCED THEIR HBA1C AFTER JUST THREE MONTHS**<sup>2</sup>

**SMARTGUARD™ TECHNOLOGY ADAPTS TO JOHN'S DAY AND NIGHT, MAXIMISING HIS TIME IN A HEALTHY GLUCOSE RANGE.**<sup>2,3</sup>

*John*

"I can focus more on doing the things I love, instead of worrying about diabetes."

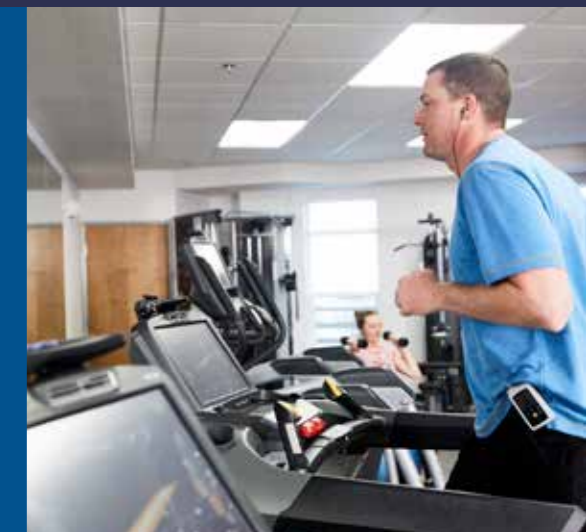

MiniMed™ 670G system user

**ACHIEVING MY GOALS...**

The MiniMed™ 670G system automatically adjusts background insulin to help prevent lows during and after exercise.

Some user interaction required.

**BEING AT MY BEST FOR FRIENDS AND FAMILY...**

I can think less about my diabetes and focus more on enjoying the moment.

**...PEACE OF MIND AND TRUST.**

SmartGuard™ technology predicts where my glucose levels are heading and proactively responds to help keep me in range while I sleep.

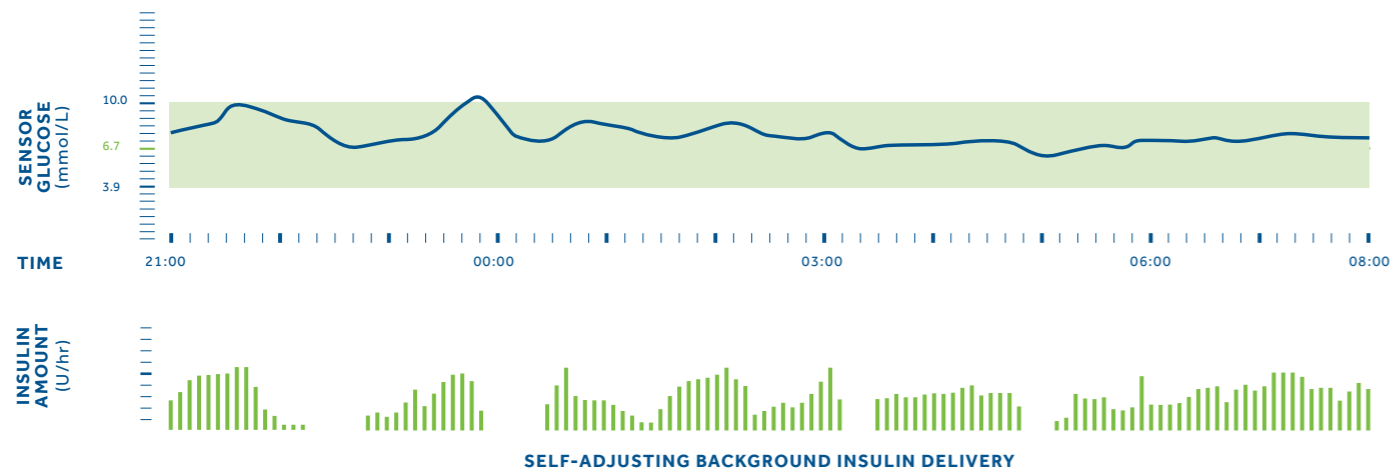

## HOW SMARTGUARD™ TECHNOLOGY WORKS?

SmartGuard™ is the exclusive technology from Medtronic that mimics some of the functions of a healthy pancreas. Each advancement of SmartGuard™ technology takes on more tasks of diabetes management, so you don't have to.

The MiniMed™ 670G system offers SmartGuard™ technology that automatically adjusts insulin delivery every 5 minutes based on your glucose levels to help keep you in a healthy range.<sup>2,3</sup>

**More time in range may mean better glucose control with fewer highs and lows, so you can feel healthy and confident in our diabetes management.**

### SMARTGUARD™ AUTOMATIC INSULIN ADJUSTMENTS

Before a meal, enter estimated carbohydrate count and the system will take care of the rest.

Before sports or exercise, activate a temporary setting to help prevent lows.

## MINIMED™ 670G SYSTEM COMPONENTS

### THE WORLD'S FIRST SELF-ADJUSTING INSULIN PUMP SYSTEM<sup>1,2,3</sup>

Some user interaction required.

"I never thought that in my lifetime I would see this type of freedom from diabetes. I no longer have to think about it every minute of every day."

MiniMed™ 670G system user

#### Guardian™ Sensor 3

Our most accurate<sup>5</sup> sensor drives our exclusive SmartGuard™ technology with a smart and reliable design<sup>6</sup>

MiniMed™ 670G insulin pump

#### CONTOUR® NEXT LINK 2.4 blood glucose meter

The only meter to link wirelessly to the MiniMed™ 670G insulin pump for highly accurate sensor calibration<sup>7</sup>

#### MiniMed™ Mio™ Advance infusion set

Medtronic offers a wide range of infusion sets so that you can choose the right one for your comfort and safety

#### CareLink™ software

Upload to CareLink™ software to conveniently track your glucose control and remotely share this information with your healthcare professional
